We have established a wide range of clientele relationships with renowned companies all over the world .

About us

WHO WE ARE & WHAT WE DO

About MODEL architect

Architecture Model Making Experts Since 1995

We are a passionate team of model makers specializing in transforming architectural concepts into precise, physical models.

From detailed scale models for presentations to conceptual designs that bring visions to life, we help architects, designers, and developers showcase their ideas in a tangible and impactful way.

Founded in 1995, **MODEL architect** has been a pioneer in the field of architectural model making, offering precision, creativity, and craftsmanship for over two decades.

We specialize in producing high-quality physical models that bring architectural visions to life — from conceptual and presentation models to detailed urban planning and landscape mockups.

Our team combines traditional handcrafting techniques with modern technology to serve architects, designers, developers, and institutions worldwide. Whether for competitions, presentations, or exhibitions, our models communicate design intent with clarity and impact. With a legacy built on trust, innovation, and attention to detail, MODEL Architect stands as one of the leading architecture model making companies in the industry.

Would you like a more casual or more technical version ? or something tailored for a brochure, website, or social media ?

MODELarchitect is led by Mr. Diwan Sharma, the company's Managing Director. He completed his Diploma in Architecture in 1992 in Delhi and established his company in 1994.

In 2002, he took a break from his own firm to work with Al Swiss Group of Companies LLC and Model Craft in Dubai and Australia, allowing him to gain a better understanding of the international market.

He returned to India in 2005, and since then, there has been no looking back. His extensive experience in the field is a result of both his national and international work

FROM THE DIRECTOR'S DESK

We are equipped with most advance equipment in our workshop, which includes state of the art computer hardware and software for computer aided drafting, scanning and in particular computerized laser cutting, Resin 3d Printer

By using laser cutting machine we achieve very high standard and precision in cutting acrylic sheet.

We also using Resin 3D Printer for more highly details .

We prefer models made with acrylic sheets because acrylic sheets are tough, long lasting and have better finish.

We use very advance technique for Resin painting the models. We can give any texture like granite, marble, mosaic, sea water or even metal.

Market comparison

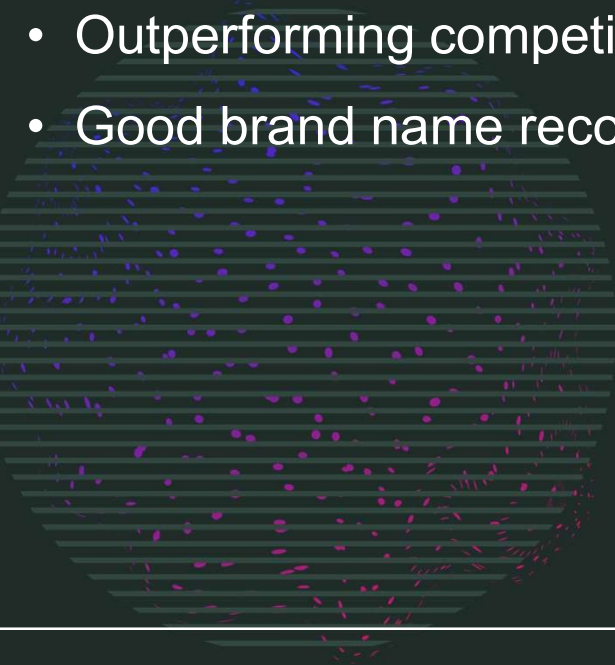

- Stands out in market
- Innovative features
- Provides unique solution
- Edge over competitors
- User-focused more creativity design
- Prioritizes user experience

Competitive landscape

- Strong market presence
- Positioned as a market leader
- Leveraging a robust infrastructure
- Dedicated team of experts
- Outperforming competitors
- Good brand name recognition

Need:

- More agility and adaptability
- Stronger competitive edge
- Ability to adapt swiftly
- Stay ahead of the curve
- Continuously improve offerings
- Integrate user feedback

Growth strategy

- Expand market reach through strategic partnerships
- Enhance product features based on user feedback
- Explore international market opportunities

Expand

- Foster collaborative growth

Enhance

- Ensure a tailored and user-focused experience

Explore

- Capitalize on emerging global markets

Thank you
